

KURSHID ALAM

Mirzapur, Uttar Pradesh, India - 231305

+91 7054960977 | kurshidalam7715@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Technical Skills

Languages: C++, JavaScript

Web Technologies: HTML5, CSS3

Developer Tools: Git, GitHub, VS Code, Postman, Thunder Client

Technologies/Frameworks: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

Relevant Courses: Operating Systems, Object-Oriented Programming (OOP), Database Management Systems (DBMS)

Experience

Maruti Suzuki India Limited

May 2026 - Present

Step Intern

Gurgaon, India

- Developed a real-time monitoring platform for **20+ edge servers**, including **5 MTLINKI** and **5 Keware** servers.
- Built an AWS IoT Greengrass monitoring component using **IPC** to aggregate health metrics from **100+ services and components**.
- Engineered scalable telemetry APIs with **Node.js, Express.js, and MongoDB** for real-time health monitoring.
- Created a React dashboard for live server health, alerts, and analytics, reducing incident response time by **80%**.
- Partnered with **UI/UX designers** and backend teams to deliver monitoring features in an Agile environment.

Softet Solutions

June 2025 - August 2025

Backend Development Intern

Remote

- Integrated social logins (**Google, Facebook, Twitter, PayPal**) via **OAuth 2.0**, increasing sign-ups by **25%**.
- Architected **RESTful APIs** for authentication, messaging, and profiles, ensuring **secure and scalable communication**.
- Collaborated with cross-functional teams to integrate and optimize APIs, improving overall application performance.

Projects

AgriTrace | [Link](#)

- Engineered a scalable backend using **Node.js, Express.js, and MongoDB** for an agriculture supply chain platform.
- Implemented robust **RESTful APIs** (with **15+ endpoints**) to manage critical supply chain data.
- Designed and optimized the **MongoDB** schema, reducing average data retrieval latency by **30%**.
- Integrated secure user authentication and authorization using **JWT**, protecting data for **three distinct user roles**.
- Collaborated with the frontend team to define API specifications, ensuring seamless **95% data integration** across the **MERN stack**.

LearnSphere | [Link](#)

- Developed a full-stack **MERN e-learning platform** with secure user registration, course purchases, and **OTP-based email verification**.
- Implemented **JWT authentication**, improving access control and reducing unauthorized access attempts by **40%**.
- Integrated **Nodemailer** for automated emails (verification), increasing onboarding success rates by **20%**.

Education

Harcourt Butler Technical University, Kanpur

August 2023 - Present

Bachelor of Technology in Information Technology

8.19 CGPA

Jwala Prasad Inter College, Mirzapur

April 2021 - March 2022

Intermediate

78%

Achievements

- Won 1st Place** at the **HackWith Uttar Pradesh Hackathon**, awarded **50,000**.
- Ranked 3rd** at the **CodeBlock 2026 Hackathon**, securing a cash prize of **25,000**.
- Secured **Top 5 position out of 150 teams** in a college hackathon organized by GDG and sponsored by Notion.
- Achieved recognition as an **Internal Round Winner** for the highly competitive **Smart India Hackathon 2025**.
- Solved **800+** problems on LeetCode, Codeforces, and CodeChef, with active participation in global contests.

Awards

- FFE Scholar:** Awarded Foundation for Excellence Scholarship for academic excellence.
- Aspire Leadership Program:** Completed FFE leadership and career development program.
